

PRODUCT LIST

CATALOG ID	PRODUCT	GROUP
ADENO-96	ADENOVIRUS ELISA	FECAL ANTIGEN
CP / GL-96	CRYPTO / GIARDIA COMBO ELISA	FECAL ANTIGEN
CP2-96	CRYPTOSPORIDIUM ELISA	FECAL ANTIGEN
CAMPY-96	CAMPYLOBACTER ELISA	FECAL ANTIGEN
GDIF2-96	G. DIFFICILE TOXINS A + B ELISA	FECAL ANTIGEN
ECO-96	E. COLI O157 ELISA	FECAL ANTIGEN
EHS-96	E. HISTOLYTICA / DISPAR ELISA	FECAL ANTIGEN
GL2-96	GIARDIA ELISA	FECAL ANTIGEN
ROTA-96	ROTAVIRUS ELISA	FECAL ANTIGEN
VERO-96	VEROTOXIN ELISA	FECAL ANTIGEN
LUA-96	LEGIONELLA ELISA	URINARY ANTIGEN
LUA-LF	LEGIONELLA RAPID TEST	URINARY ANTIGEN
C / G-DFA	CRYPTO / GIARDIA DFA	DIRECT FLORESCENT ANTIGEN

BULK 960 TEST KITS ARE ALSO AVAILABLE, PLEASE CONTACT US FOR MORE INFORMATION

Any clinical lab which uses immunodiagnostic assays to evaluate the presence of analyte specific antigens or antibodies.

ABOUT US

IVD Research, Inc. was founded in 1996 and is comprised of a team of dedicated professionals with over 25 years of experience in the research, development & manufacturing of immunoassays. All human products manufactured by IVD follow cGMP and are CE Marked. The facility is licensed for manufacturing by the Federal FDA, the State of California FDA and also has a USDA Biologics Manufacturing License.

IVD Research's products are developed and manufactured at 5909 Sea Lion Place, Suite D in Carlsbad, California 92010 USA. Our goal is to provide you with tools and services to aid you in identifying common worldwide pathogens.

IVD Research carries a wide range of antigen detection assays. We also manufacture and distribute a full line of external controls and quality control panels for use with a number of different laboratory platforms. If you are looking to develop you own immunoassay, please inquire about our EIA Microwell Development Kit. With our proven track record, you will:

- Talk to knowledgeable customer service staff
- Experience efficient response times
- Receive proven, consistent, quality products

For more detailed product information, please visit our website www.ivdresearch.com, or email us at ivd@ivdresearch.com

OUR SISTER COMPANY

SafePath Laboratories, LLC. offers immunoassays for food safety and animal health. Please visit the SafePath website for more information: www.safepath.com

WHAT WE DO:

- Design, develop & manufacture diagnostic test kits used to identify infectious organisms. Our kits are **critical** in the diagnoses of specialized types of infectious disease.

OUR TESTS ARE USED TO:

- Diagnose disease in both humans & animals
- Identify infectious organisms in the environment & food.

MARKET FOCUS:

- Two main market segments:
 - Human diagnostics
 - Veterinary diagnostics
- Primary areas:
 - Infectious agents of the GI (fecal) tract
 - Infectious agents of the respiratory tract
- Primary end user:
 - Hospitals
 - Clinics
 - Veterinarians
 - Physicians

ADDITIONAL SERVICES:

- Contract Manufacturing that is both Experienced and Specialized.
- Turn key Microwell EIA Development Kit for your further manufacturing use.
- QC Panels & External Controls

WHO WE ARE:

IVD Research is comprised of a team of talented researchers and developers with 40 years of combined experience & expertise in the field of diagnostics.

All human products manufactured in our facility are CE Marked, follow cGMP, including CAPA and Design Control. Our sister company, SafePath Laboratories has a USDA Biologics Establishment License for manufacturing.

We deliver exceptional, personalized customer service.

- Talk to a knowledgeable, friendly customer service staff.
- Efficient response time.
- No catalog sales.

PROVEN-CONSISTENT-QUALITY-PRODUCTS

LEGIONELLA URINARY ANTIGEN DETECTION RAPID TEST KIT

NEW!

The IVD Research Legionella Urinary Antigen test kit is intended as an adjunct to culture for the presumptive diagnosis of past or current Legionnaires ' disease by qualitative detection of Legionella pneumophila antigen in human urine.

WHEN YOU NEED

Results...

ACCURATE RESULTS:

- Overall Sensitivity - 92% (174/189)
 - Overall Specificity - 98.8% (335/339)*
- *Compared with culture

RAPID RESULTS:

- Test ready to read in 15 minutes

CONVENIENT RESULTS:

- Test storage at room temperature
- Test kit includes all needed materials - nothing additional needed
- Test is housed in easy to use cassette format

ECONOMICAL RESULTS:

- IVD Research, INC.'s Legionella Urine Antigen Rapid test kit is priced competitively for worldwide marketing...
