

URIT-500C

URIT-500C Urine Analyzer

Specifications:

- Parameters: pH, Nitrite, Ascorbic Acid, Protein, Specific Gravity, Blood, Glucose, Bilirubin, Urobilinogen, Ketone, Leucocytes
- Principle: dual-wavelength reflectance photometry
- Wavelength: 550nm, 620nm, 720nm
- Throughput: 420 samples/hour
- Memory Capacity: 1000 results
- Strip: Uritest 10G、11G urine reagent strips
- Dimension: 390mm x 340mm x 290mm

Features:

- Easy maintenance design
- High test speed, ideal for extensive sample laboratory
- Fully automatic operation for ready-to-test
- Internal calibration for sensitivity of strips
- Cold light source facility with long life and high stability
- Barcode reader optional
- URIT UQ-10 & UQ-11 Urinalysis Control
